

## Demo Protocol

1. Get lab materials
  - a. Set up 96 Well Plate
  - b. Set up reservoir
2. Get supplies for procedure
  - a. 12 - channel pipette
  - b. Tips for pipette
  - c. Trash receptacle
3. Pipette sample from reservoir into 96 well plate
  - a. Watch the video and follow the example.
  - b. Pipette Sample Material from wells A1-A12
  - c. Pipette Sample Material from wells B1-B12
  - d. Pipette Sample Material from wells C1-C12
  - e. Pipette Sample Material from wells D1-D12
  - f. Pipette Sample Material from wells E1-E12
  - g. Pipette Sample Material from wells F1-F12
  - h. Pipette Sample Material from wells G1-G12
  - i. Pipette Sample Material from wells H1-H12
